

# Connecting your own device to school wifi

## Android devices

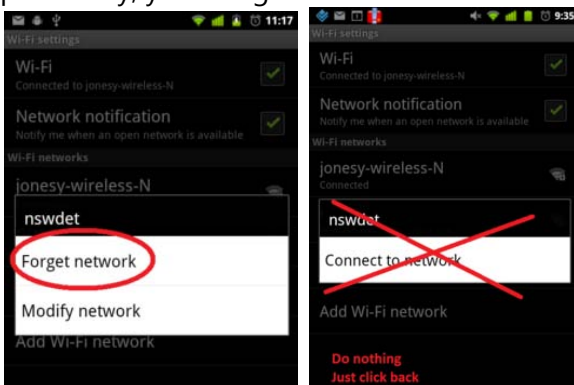

1. Go to Settings > Wireless & networks > WiFi settings.

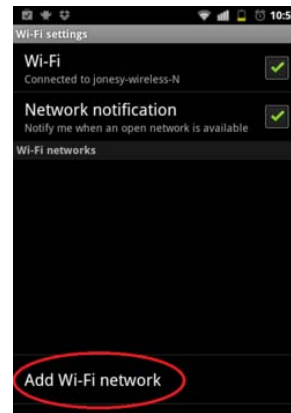

2. Wait for your device to do a scan.
3. If you can see nswdet, wipe previous configurations. DO NOT CONNECT.

Depending on if you have attempted to connect previously, you will get either of these menus:

4. Click **Add a Wi-Fi network**.

5. Enter the settings as per the picture below and press **Save**.

6. You will be asked to authenticate. Enter your portal username and password. Add @detnsw at the end of your username.

Username: firstname.surname@detnsw  
 Password: your portal password
